

project description

- 9-bay YRT bus terminal in Vaughan Metropolitan Centre [VMC], a key transit hub for customers traveling within and outside York Region.
- Connects to Viva bus rapid transit on Highway 7, and to the TTC Line 1 subway through a fully-accessible underground walkway - or at ground level through a new park, Transit Square.

key benefits & features

- Designed to be accessible at street level from all directions, welcoming those arriving by transit, walking, cycling or being dropped off by car.
- Just south of the terminal is VMC's beautiful new urban park: Transit Square.
- Connects the growing VMC area with rapid transit and amenities with the rest of Vaughan, York Region and the GTA.
- Provides a convenient location for transit customers to arrive, transfer and depart, within a short walk of the amenities and places to live and work in the VMC area.
