

Hello Folks!  
Access to Highway 7  
and the Bayview  
stop has changed!

VIVAnext

## Changes to Bayview Station en route

Construction of the new Viva Bayview Station is underway. A year from now we will have a state-of-the-art rapid transit station we can all be proud of. In the meantime, the existing westbound stop will be closed and a temporary one will be located a few metres east. To access Highway 7 east of Bayview Avenue, pedestrians will have to use the new walkway and stairs. These will also keep everyone safely away from the construction zone.

To help direct riders and answer questions, staff will be on-site the first three days the temporary stop is operational. You'll recognize them by their colourful vests.

We apologize for any inconvenience and look forward to building you a beautiful, bright vivastation with a heated, glass wind enclosure.
